---

With the help of Silkin Management Group, I have managed to make my practice highly desirable and saleable. So after 33 years of practicing dentistry I've sold my practice and I'm retiring from the profession.

Silkin helped us acquire the most amazing staff members, most of whom have worked with the practice for well over ten years now and all of whom have seen enrichment in their lives through the programs and activities Silkin offers.

For the last 10 years we have averaged over \$500,000 in collections working four days or fewer per week while taking six to eight weeks off for vacation each year! I never thought that was possible.

We have found that solid management systems, programs and training generate good employees who bring in great people as patients and the financial rewards follow for one and all. We never treat pocketbooks, insurances, HMO's or PPO's. We treat people's needs honestly and ethically so they benefit in their oral health and in their lives.

We appreciate the Silkin family and programs and have come think of those we've worked with over the years as trusted friends. They kept us on task and helped us to become what we are in all aspects of our professional and personal lives.

Silkin can help you achieve your goals and make practicing dentistry rewarding and stress free. Find out more about the complimentary practice evaluation they offer and find out how you can benefit from their expertise.

Sincerely,

A handwritten signature in cursive script that reads "Henry".

Dr. Henry Vit, D.M.D.
